UI Path Testing	UI Path Testing	Reanne Jalipa	Done	June 8, 2024	June 15, 2024	High			

For Sprint 4, front-end for the homepage is already created, the nav bar component is done as well. Same goes for the About page. Routing for all available pages including the nav bar components. Testing had been implemented, both automated (using UI Path) and manual testing. For the back-end side, questionnaire part is being developed (will be carried over for the next sprint). Forgot password and reset password are now implemented.

Sprint Retrospective

What went well:

- The front-end of Homepage is done.
- The Nav Bar component that will be used for the rest of the pages are already done. The routing and other functionality are working.

- The questionnaire part is now in progress of being developed.
- We meet the sprint's expectations.

What could be improved:

- We will try to make the logic on how we will present the questionnaires as accurate as possible. Same goes for its UI.

What needs to be done:

- Huenique questionnaire
- Huenique results
- Email copy request
- Add-ons
