

## **Progress Report**

**Date:** 27/05/2024

Current Percentage of completion: **10%**

We have formed our idea and created the mockups. We have also created the ERD for the database. Additionally, we set up our hosting using AWS and its services. We have also set up the Angular project. Lastly, we conducted research on seasonal colors for the content of our application. We are currently working on the frontend for the landing pages, signup, and login.
